## P. G. and E. adds 404,000 new electrical horsepower in 1948

and 1½ million more on the way

**V-J DAY 1948 1951**

**Record power growth.** P. G. and E. began building new power plants immediately after V-J Day. 404,000 new horsepower were installed this year. 1½ million more will be added in the next 3 years.

**NEW POWER FOR CALIFORNIA**

**\$300,000,000 already invested.** Most of the money for expansion comes from invested savings of thousands of people—many of them your friends and neighbors. They are the real P.G. and E. builders.

**148,000 stockholders,** mostly Californians, have put their savings in P. G. and E., becoming partners in one great enterprise. Few companies in the entire nation are more widely owned.

**7,000 new jobs**

**More than 7,000 jobs** have been created by the expansion. This additional payroll has materially helped all sorts of business throughout the area we serve.

**Still more generating plants,** both steam and hydro, are being built to meet the growing demand. In 1948 alone nearly 70,000 new customers were connected to our lines!

**It all adds up to the biggest** power-building program in America today... going full speed ahead for the factories, farms and homes of Northern and Central California.

Work never stops on our power-building program

Sgt. Vernon Freeman said registration will continue through Jan. 2.

# Homemaking Today

By Barbara Foote

Frosty beverages, cool and tinkling, are always welcome on sizzling summer days. When friends drop in unexpectedly or the children ask for something "extra good and cold," you'll want to be prepared to serve a refreshing drink in just a few minutes.

With sugar syrup in a sealed jar in your refrigerator, it is a simple trick to mix a quick orange or lemonade, or some other fruit drink. To make a basic syrup, mix equal parts of granulated sugar and water and boil together for 5 minutes. Pour the syrup into a hot jar. Cool, then seal and store in your refrigerator.

Decorative ice cubes add interest to cold beverages. In ice cube sections of the freezing trays, place maraschino cherries—red or green—Bing cherries, sprigs of mint, cubes of pineapple, strawberries, fresh grapes, raspberries, or quarter slices of lemon, orange or lime. Freeze gingerale in cubes and use in place of ice. This cools the beverage but does not dilute it when melted. Coffee or tea also can be frozen in cubes and used for iced coffee or tea.

Madera, Madera County, is reported by the NAC to have received its name from the Spanish word for "wood" or "timber." The town grew out of the demand for lumber in the east. A 63-mile flume floated millions of logs from the Sierra to the railroad between 1874 and 1932.
